Ramon Vega

Computer Engineer
Miami, Florida

Summary

Information technology professional and retired military aviator with a breadth of operational, command, test, program management and systems and computer engineering experience. My career objective is to provide the DoD warfighter and Combatant Commands with the capabilities required to ensure America's full-spectrum dominance on the battlefields of today and tomorrow.

Experience

United States Department of Defense
Computer Engineer
July 2014 - Present
Doral, Florida

USAF
Systems Engineer
June 2009 - July 2014 (5 years 2 months)

Systems engineer for air armament and related weapon systems for the Department of Defense.

Jacobs Technology
Systems Engineer
June 2008 - June 2009 (1 year 1 month)

Systems engineer (support contractor) for air armament and related weapon systems for the Department of Defense.

USAF
Officer (Lt Colonel)
June 1983 - May 2008 (25 years)

F-15E, EF/F-111 operational and flight test weapon systems officer. Graduate of USAF Test Pilot School & USAF Fighter Weapons School. Operations Support and Acquisition Squadron command experience. Deployed experience as expeditionary air wing training officer and CJTF-76 Joint Operation's Center (JOC) Deputy Chief of Current Operations (CHOPS).
